

ARCHITECTURAL PRECAST:

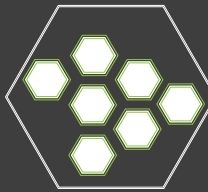

TruAbrasives are preferred for architectural concrete applications. Polishing molded concrete for smooth edges, a white finish will remain.

TruAbrasives, made from 100% recycled glass, are preferred for the environment and your health. It is QPL Mil-Spec & CARB approved, suitable for use around water, and Beryllium is not listed on our SDS.

ARCHITECTURAL CONCRETE

Tindall, Spartanburg, SC

Tindall used TruAbrasives on their concrete highway divider project and loved the results.
